

Title: First Two of Many Urbana Stories

January 9, 2023

Greetings all,

Here are two stories from one of our volunteers (the first of many Urbana stories):

"An Asian recipient saw a "dark image...overall looks like static" that took the place of a true connection with Jesus. My work with my Chinese friends gave me the sense it was somehow generationally demonic in nature. But, no fear, we just went back to the appreciation memory, reconnected with the true Jesus, and asked Him what we were to do or say regarding the other entity. With his eyes closed, a calm demeanor, his head tilted slightly, and a small, smirky smile, the recipient then reported: 'It is gone now. Wow! It just dissolved. It is like dust now!'"

"Most of the recipients I prayed with really had a hard time with the idea/truth that Jesus just wants to be with them. I was given academic, intellectual, spiritual, religious, even some new age-ish sounding 'possibilities' of how/where He might be with them, but none ever felt satisfying or real. 'He is in the air around me,' 'He is on the stage, but I'm not with Him,' 'He is in me! He is in my heart, I know it,' ...and multiple quotations of the Bible about the presence of God or God's throne (they know their Bible verses pretty well...ha!). But we just kept returning to the appreciation memory [and used a variety of basic troubleshooting tools]. And, in all cases, there was eventually breakthrough. They all experienced a true, real connection with Immanuel."

Again, THANK YOU for your prayers.

Blessings,

Dr. Lehman/Karl
