

Title: Urbana Stories #7 – Grad Student Working in India, Chinese Law Student

April 3, 2023

Greetings all,

Here are a couple more stories from Immanuel Approach volunteers at Urbana:

"I prayed for a grad student working in an orphanage in India. He had a very healing conversation with Jesus as he wept over the needs of the children. He was finally able to release the burden of the care of the children over to their Father God. As he received that freedom, he sat up straighter and joy radiated from his face. He was amazed by the Immanuel Prayer process and wants to learn it and take it with him to India!"

"I prayed for a Chinese law student who started out feeling lonely and discouraged. She felt as though she had lost her sense of purpose and identity since coming to the US for school. Jesus not only affirmed her identity, but also gave her a clear sense of what he specifically gifted her to do. She was amazed at how clearly she heard Jesus talking to her."

Blessings,

Dr. Lehman/Karl
