

Title: "Update Re IA Ministry in the Middle East"

February 19, 2024

Greetings all,

I spent several hours this past week on a zoom call consultation with the team currently working in the Middle East, and wanted to send out a quick update.

Their work has been very intense – twelve-hour days, with plans often changing from one hour to the next – but their work is going well and everyone has been physically safe. Lots of people have been connecting with Jesus, and nobody has gotten stuck in traumatic memories. People are making comments such as, "This is groundbreaking!!" and "This is a breakthrough!"

Thanks for your prayers, and please keep praying.

Blessings,

Dr. Lehman/Karl
