

Title: "Immanuel Approach Training In Ukraine"

July 15, 2024

Greetings all,

Just a quick note to ask for prayer.

An Immanuel Approach trainer and her husband are traveling to Ukraine this week to provide a three-day seminar (July 16, 17, & 18). Ukraine is having daily widespread power outages as well as a massive heat wave similar to what we are experiencing here. The retreat center where she will be providing the training has a generator that hopefully will be able to run PowerPoint slides if/when the electricity is out. However, the generator will probably not be able to run the air conditioner, and we are concerned about the impact of the heat on everyone's capacity (especially since most of them are struggling with poor sleep due to miserable heat with no AC or fans).

They have over 150 people signed up for this training, and many of these attendees are chaplains. These are people working on the front lines with soldiers.

Please pray for safety and stamina and capacity for the trainer, her husband, and all those at the seminar. Pray that the participants will experience the living, interactive presence of Immanuel, and that they will then be able to facilitate this for others all over Ukraine.

Thanks and blessings,

Dr. Lehman/Karl
