

Title: "Ukraine Training Follow-Up"

July 22, 2024

Greetings all,

The Immanuel Approach trainer in Ukraine sent the following note after finishing the first two days of the seminar:

"This is awesome. Yes, it's been raining for two hours and the temperatures are dropping. Yes, God is sustaining my strength. And the response is overwhelming! We did practice exercises in groups of three, and people connected with Jesus -- many out of 130 participants. They are so open!"

However, she came down with a nasty flu right after finishing the training. So thank you for your prayers so far, and please pray now for rapid recovery, anointing for additional mentoring opportunities in the remaining days of this trip, for safe travel home, and for anointing for the seminar participants to help spread IA to the many thousands across Ukraine who desperately need to experience the living, tangible, interactive, healing, personal, friendship presence of Jesus.

Thanks and blessings,

Dr. Lehman/Karl
