

Title: "Endorsement From Medical Director of AACC"

August 19, 2024

Greetings all,

Just a quick note to share an encouraging endorsement from Dr. Karl Benzio, board-certified psychiatrist, Co-founder and Chief Psychiatric Officer of Honey Lake Clinic, and Medical Director of American Association of Christian Counselors (AACC):

"Jesus is the Wonderful Counselor and the Great Physician. Put those two professions together and you get a psychiatrist! Yes, Jesus is the Perfect Psychiatrist!

"When Jesus is invited in, we've just recruited the Perfect Psychiatrist to make an old-fashioned house call. And when Jesus shows up, the facilitator's load is reduced. A trained clinician can really catalyze some amazing healing and transformation, but a trained lay person can also facilitate this encounter with Jesus, providing the context for Jesus to come with His unmatched therapeutic interventions.

"As the co-founder and Chief Psychiatric Officer of a unique Christian behavioral health residential facility, I am excited not only for the Immanuel Approach to be a tool for our therapists, but also for our pastors, nurses and frontline behavioral health techs. Learning this skill of facilitating a connection with Jesus and allowing Him to do the heavy lifting is a game-changer."

Blessings,
Dr. Lehman/Karl
