Sample Closing Prayer Lite

As you can see, the closing prayer for the Lite version of Immanuel Approach is very simple and short.

“Thank you”: *Start with whatever you want to pray at the beginning of the closing prayer. I always include a brief “thank you” to the Lord for His presence and protection during the session and for whatever progress, healing, and blessing has come.*

Release additional blessings: Close with releasing any additional blessings. For example,

“We also ask that you come with any additional blessings you have prepared for _____ today. We gladly deliver, with our prayers, all of the blessings you have prepared for (him/her) today.”
