July 20, 2001

Greetings all,

Just finished a new document: "Dealing With Demonic Interference/Opposition During the Session: Prayers and Commands to Neutralize Demonic Interference". I am not sending the whole document because it is 17 pages long, but included below is the intro paragraph.

Blessings,

**"Dealing With Demonic Interference/Opposition During the Session:
Prayers and Commands to Neutralize Demonic Interference"**

Intro paragraph:

Dealing with demonic interference is one of the places we have observed consistent confusion and difficulty in our training groups. Some of this confusion and difficulty is probably due to the complexity of the subject and some is probably due to the opposition the enemy puts forth when we try to remove demonic interference. However, we realized that some of the confusion and difficulty was because our notes and sample prayers for dealing with demonic interference are some of our oldest and least coordinated notes. We are trying to integrate and coordinate our earlier notes about "binding prayer" and "exposure and binding prayer," along with insights from the last couple thousand hours of experience, to produce a more coherent and usable set of notes and sample prayers for dealing with demonic interference during prayer for emotional healing sessions. This is our beta testing document, including a number of prayers and ideas with which we are currently experimenting. We are happy to receive feedback.
