

Title: Update re Compassion International

February 26, 2014

Greetings all,

Just a quick update regarding Compassion International. The short summary is that our friend's friend, the Compassion International director for Canada, continues to share about the Immanuel approach with Compassion directors for other countries as the opportunities arise, but the global leadership team is so constantly challenged with urgent, practical crises (e.g., urgent needs for food, shelter, clothing, health care, etc) that they have a hard time making space to look at anything new. So continue to pray for Barry (the Compassion director for Canada), that the Lord would give him guidance, anointing, and favor with respect to sharing with his colleagues, and keep praying that the Lord would be speaking directly to the other country directors and to the global leadership team. Also, our friend, David Bamford, will be providing an Immanuel approach training at the Compassion Canada headquarters in April. So also pray for David and for that event, since it will obviously be another opportunity for more people in the CI network to learn about the Immanuel approach.

Thanks for your prayers, and blessings,

Dr. Lehman/Karl
