

Title: New -- Youtube Lecture Highlights

August 7, 2008,

Greetings all,

Just a quick note to let you know that we have just posted the first in a series of "Lecture Highlights" that we will be putting up on youtube. Here's what Charlotte says about how to access the U-tube stuff:

If folks go to www.youtube.com and put "Karl Lehman capacity" in the search box, the new clip will pop up -- probably at the top of the list. At least it did this morning. Or, folks can go to www.youtube.com/user/kclehmandotcom which is our "channel" on YouTube, and there they'll see all of our video offerings. Also, the capacity lecture highlights clip can be embedded into other sites; so it's easy to share it on your facebook page, or elsewhere, if you want others to see it.

Blessings,

Dr. Lehman/Karl
