

Title: IA Training and Healing in Winnipeg, CA

October 7, 2008

Greetings all,

Thank you to all who were praying for our conference in Winnipeg. It went very well, and several of the participants have e-mailed us that they are now using the Immanuel approach with great success. Also, **even though we did not include any exercises in this seminar, several of the participants were triggered by the live session video segments, and then applied the principles we had been teaching to receive powerful healing.**

Blessings,

Dr. Lehman/Karl
