

Title: Voice of the Martyrs and Immanuel Approach in Pakistan

March 27, 2010,

Greetings all,

I have been working on a section for our upcoming book that includes a brief summary of testimonies regarding the work the Lord is doing through the Immanuel approach, and I thought it would be encouraging to send these pieces out to you. Pieces of some of these stories have gone out in earlier e-mails, but these are the most updated and complete accounts. First installment is a story about Voice of the Martyrs and Immanuel Approach in Asia.

Blessings,

Dr. Lehman/Karl

### **Voice of the Martyrs and Immanuel Approach in Pakistan:**

Our colleagues who are using the Immanuel approach are also seeing dramatically positive results. Kim Campbell, the medical director for Voice of the Martyrs, has been using the Immanuel approach to provide emotional healing for traumatized/persecuted Christians in countries such as Pakistan, Nepal, Sri Lanka, Nigeria, the Philippines, Ethiopia, Iraq, Laos, Thailand, Myanmar, and Columbia. The following is one of the many amazing stories of healing that Kim has shared with us.

David was born into a deeply religious Muslim family in a Muslim village in Pakistan, and his Muslim family members and neighbors became very upset when he and one of his uncles became Christians. Not surprisingly, local Muslims became even more upset when his uncle began openly telling others about his faith, when David began preaching, and when people were delivered and miraculously healed in response to David's prayers. David was twenty six years old in July of 2006 when his uncle was abducted and executed by a group of enraged villagers, and a month and a half later two men with AK-47s came into the family sweet shop where David worked and emptied 50 rounds, leaving David lying in a pool of blood with 11 gunshot wounds. His survival is miraculous, since the doctor at the local hospital refused to treat him, and he therefore did not receive any medical care until he got to a hospital in a distant city eight hours later, but his left arm was so badly damaged that it had to be amputated.

Voice of the Martyrs helped David with the cost of his medications and with a prosthesis for his

left arm, and when Kim visited in October of 2007 to provide medical follow-up he also asked David about the psychological aspect of the trauma. David stated that he was “all right,” but his face and voice looked and sounded depressed, and with further probing Kim discovered that he had full blown Post Traumatic Stress Disorder (PTSD), including flashbacks of the machine gun fire during the attack. Kim then lead him through the Immanuel process, and the Lord showed David that He had always been with him, that He was with him throughout every moment of the attack, and that He would always be with him in the future. At the end of the ministry time, when Kim asked him to go back to the memory of being shot, David sat quietly, with a surprised but peaceful look on his face, as he reported that he could still recall being startled by the shooting but that he was now aware of Jesus’ presence *with him, in the memory, even during the shooting*, and that the memory was no longer distressing. (David’s name has been changed to protect his safety.)
