

Title: Winnipeg Seminar Went Well – Beautiful Demonstration Healing

September 28, 2011

Greetings all,

The seminar in Winnipeg, Canada (September 10th) went very well:

- 130 people showed up
- The teaching seemed to flow well (even though I had to cut out about 2/3 of the material to fit it into one day)
- The live demonstration was beautiful and powerful (the person receiving ministry received profound healing in important traumatic memories even though I used only basic tools, **and we all cried with her as she described poignant healing interactions with the Lord**)
- And the group exercises went very well.

We continue to be encouraged by how consistently the Immanuel approach works, even in public demonstrations using only basic tools, and in group settings.

Blessings,

Dr. Lehman/Karl
