

Title: India Trip Summary

December 20, 2013

Greetings all,

The India team have all safely returned from their trip, and I thought those of you who have been following this adventure might appreciate excerpts from a summary note I just got from the team leader (with a few small edits to increase clarity):

“Some quick highlights and answers to prayer:

- * Safe travels!
- * Good health except for 1 day, and I got over that by the end of that same day....
- * A thousand men and women were given a small version of Immanuel prayer (even though we only had time for a very short exercise, many of them still encountered Jesus and got a taste of what connecting with Jesus is like). They were left wanting more, and have been asking if we can come back and work with men leaders! Mark is hoping to take a group with him (probably in September) to work with the men.
- * We taught 260-300 women the full version of Immanuel prayer, and many (probably 75 %) connected with Jesus and encountered Him.
- * We worked with the Safe house girls and their staff (about 20-25), and almost all of them encountered Jesus. Awesome stories of Jesus being with them, and one of the girls accepted Jesus through her encounter.
- * We taught the Anti-Human Trafficking team (about 15-18), which included house mom's, counselors, and the leaders who do the raids. I did sessions with several who were completely undone with how Jesus came to them, talked with them, and held them, and a lot of others also had really powerful experiences with Jesus. Almost everyone encountered Jesus in some way or another! It was awesome!
- * Then those from the Anti-Human trafficking team (AHT) facilitated Immanuel sessions for the safe house girls and for each other. It was awesome how fast they picked it up, and how Jesus just shows up to them. We had 4 Hindus who participated in the 2 days of training and totally experienced Jesus (pray for them to choose to follow Him fully).
- * There were physical healings that took place during our Immanuel sessions with the women!

* We did one on one sessions with a number of the staff at an orphanage. They were undone too, and said they had never before experienced Jesus like this!

*The leader in charge of everything had an Immanuel session with Mark, and said He absolutely wants us to come back – that we carry something He's never experienced before, and he wants all of the church leaders to experience God this way.

That has been my prayer that people would experience Jesus and it would take them deeper into intimacy and relationship with Him. Thank you God!

....The Hindu leader I asked you to pray for did pray to accept Jesus, but I'm not sure he fully understood what he did. He is definitely moving closer to Jesus, and he was asking for more sessions with Mark and he was definitely open and really loving when he encountered God....

We had an amazing team full of the Holy Spirit and I was so blessed to be with each one of them. Our team grew in our faith and grew in relationship with Jesus and with one another. We grew in unity and love towards one another. It was awesome because we all were different with different gifts and it was like each of us did what we were created for and it was beautiful and God blessed it!

....We have been asked to come do a women's conference in India in 2014 with another group and teach them Immanuel prayer also. There is also a possibility of going to Africa in April to do the same. Please pray for wisdom as to whether these are things we should do and who should go on these teams (if we do go)....”

Again, thank you to all who prayed faithfully for the ministry team and those they were working with in India. We also welcome continued prayer that those who were trained in India would continue to learn, practice, and even train others.

Blessings,

Dr. Lehman/Karl
