

Title: More Updates from India

December 6, 2013

Another quick note to pass on excerpts from e-mails and to pass on specific prayer requests:

“We had a great day yesterday with all the women!....So many were encountering Jesus, and we had some come and give testimony. Lives were definitely touched. One woman said that a man in a white robe walked up to her, and that then her back pain completely left. There was another one like that too where physical healing happened when she started to perceive God's presence in the Immanuel Healing prayer. We didn't have time for a lot of testimonies, but you could tell people were connecting and they were experiencing God.”

Our people will be working with the anti-human trafficking team (20 to 25 people) tomorrow through Tuesday, especially focusing on Immanuel approach training. They will also be providing individual IA sessions for the team members and safe house girls, but we would especially like prayer for the training aspect. If the anti-human trafficking team members can really get it, then they can continue ministering to each other and to the safe house girls after our people come home.

Also, one of the team leaders has been sick today, so pray specifically for her healing and for protection for all of the team.

Thanks and blessings,

Dr. Lehman/Karl
