

Title: Another New Resource -- *Condensed Sessions, 6th Set*

February 28, 2013

Greetings all,

Just a quick note to let you know that we have just released another DVD resource, *Live Emotional Healing Ministry Sessions, 6th Set*. I have included, below, summaries for each of the condensed sessions.

Blessings,

Dr. Lehman/Karl

Charlie: "See, This Works!" Condensed: This 2012 session begins with Charlie describing how he has been waking from dreams in the act of saying, "Will you please *listen* to me!" with intense, demanding frustration. Recalling a positive memory and appreciating it transitions spontaneously into an interactive connection with Jesus in the present, and Charlie then asks Jesus for guidance. The Lord leads Charlie to memory after memory, all carrying the same emotional package of feeling bewildered, alone, *not* seen, *not* heard, *not* understood, and *not* helped. After engaging with the Lord's living, healing presence in each of the memories, Charlie specifically reports that he no longer feels alone in the memories, and that it feels true that God is seeing him, listening to him, understanding him, and helping him. Seven months later, Charlie describes diminished triggered reactions regarding the initial target; and when he thinks about his childhood, it feels true that the Lord is with him and helping him understand everything around him (as opposed to feeling bewildered and alone).

Bruce Condensed #3, Daughter's Illness: In this 2010 session, after an interactive connection is established, Jesus helps Bruce connect with pain and anger around his daughters recent bout with a particularly nasty flu bug. Bruce then experiences complete resolution of his pain and anger when Jesus reveals His own love and concern for Bruce's daughter. During the two years following the session Bruce observes continued peace regarding his daughter's suffering.

Rita #1: Advanced Immanuel Intervention, Condensed: In the first part of this 2005 session (summarized, but not included on the DVD), we figure out that internal child parts are deliberately blocking Rita from being able to perceive the Lord's tangible presence. I then help these child parts to identify and clarify their fears, and negotiate with them to find conditions that feel safe for allowing Jesus to be present. Once these internal child parts allow Jesus' tangible presence and experience Him directly, they quickly choose to cooperate with Him. Most of the remainder of the session consists of Dr. Lehman coaching Rita to ask Jesus for guidance and help, Rita engaging directly with Jesus, and Jesus Leading the work of resolving unfinished processing tasks. Ten months after the session, Rita can still perceive God's presence in the memories we worked with, and she reports being less triggered, less guarded, more

loving, and more able to hear and respond to the Holy Spirit.

Bruce Condensed #4, Healing for Fear of Mom: In this 2010 session, a positive, interactive connection is established, and then Jesus leads Bruce to childhood memories of being traumatized by his mother's anger. Jesus works with Bruce to bring deep healing, and two years of follow-up reveal lasting resolution regarding fear of his mother.
