

Title: August 2013 Uganda Mission Trip

August 3, 2013

Greetings all,

Just a quick note to ask for prayer. A team with Restoring the Heart Ministries (RTHM) is currently in Uganda, ministering to a variety of people over the next two weeks. They are using material developed by one of the team leaders (the *Wildflowers* package of material for working with sexual abuse), and they will also be using the Immanuel approach. One of the team members, Mark Hattendorf, is a friend and colleague of ours who has been in one of our mentoring groups for years, and he will be leading work with the Immanuel approach. During the first week (starting next Monday, 8/5), the team will be taking a couple hours each morning to train about 50 young adults to use basic Immanuel approach healing tools, and then in the afternoons they will be ministering to kids and youth in nearby villages (kids and youth who have been horribly traumatized by every kind of horror related to Joseph Kony and war crimes in the area). During the second week they will be ministering to several hundred women with AIDS, mostly using the Wildflowers material, but with an hour of Immanuel approach at the beginning of each day. Furthermore, there is a two man film team with the ministry team who will be trying to capture the whole adventure on film. One hope for the film team is that they will be able to capture both training and ministry with the Immanuel approach, so that we will get footage of healing with the Immanuel approach and also footage of how the young adults can learn it over the course of several days. Hopefully this can then be used to inspire and train others who want to do work with similar traumatized populations in third world countries.

We would greatly appreciate prayer for all of this. For protection and anointing for all on the ministry team, for anointing for Mark to teach and lead the Immanuel approach, for the young adults to learn the Immanuel approach, for the young adults and ministry team to be anointed to work with the kids in the villages, for the ministry team to be anointed to work with the women with AIDS, for anointing and guidance for the film team, and for the Lord's healing to be released tremendously in every setting (and anything else you feel led to pray for).

Thanks and blessings,

Dr. Lehman/Karl
