

Title: Compassion International and the Immanuel Approach

February 18, 2014

Greetings all,

Just wanted to send a quick prayer request. Compassion International provides care for more than a million children in developing countries. The leadership for Compassion International is currently holding their annual global meeting (Feb 17-20), and a friend and colleague, David Bamford, has just sent us the following prayer request that he asked us to also pass on to the rest of you.

“Compassion International is an organisation that does wonderful work lifting children out of poverty in the developing world. However, when faced with the urgent needs, such as hunger, disease and natural disasters, trauma often goes unseen and unaddressed. Barry Slauenwhite, president of Compassion Canada, plans to bring to CI’s global meeting, Feb. 17-20, the need for trauma healing and a request that CI try out the Immanuel Approach. Pray that God would help all of us, including the Compassion directors, to see this need and His provision for these vulnerable ones.”

Thanks for your prayers.

Blessings,

Dr. Lehman/Karl
