

Title: "The Immanuel Approach is Spreading!"

November 4, 2017

Greetings all,

As most of you already know, the Immanuel Approach has been spreading steadily for years. I thought it would be fun to compile a list of 1) Countries where Immanuel Approach ministers/ministry teams have provided IA ministry and/or teaching; and 2) Countries that have Immanuel Approach facilitators living in-country. I have included, below, a list that I just put together off the top of my head. I know there are many Immanuel Approach countries not on this list. Please send me a quick note if you are aware of other countries that should be included.

Note: there are many Immanuel Approach ministers/ministries working in countries where it is dangerous to engage in any explicitly Christian activity. If you are sending information regarding one of these ministers/ministries, please just send the country name. *Please do not include any information in your e-mail that might endanger the people involved.*

Thanks and blessings,

Dr. Lehman/Karl
