

Title: Updated Version of Chapter 3

March 30, 2016

Greetings all,

Just a quick note that we have updated Chapter 3 for the Immanuel Approach book posted on the "Getting Started" page of the Immanuel approach website. The new version benefits from many edits in preparation for publishing the book, and the summary of the Immanuel Approach towards the end of the chapter is especially much improved.

I continue to appreciate your prayers as I work on the book. My editing for the first draft is at Chapter 36, with four more chapters, the appendices, and the glossary still to go. After that will be some help from professional editors and proofreaders, and also the index. Not to mention cover design and many other small details. My current hope is that the project will go to the printers some time in the fall.

Blessings,

Dr. Lehman/Karl
