

Title: Prayer Request for My Voice

July 18, 2018

Greetings all,

Just a quick note to request prayer. I have been having trouble with persistent soar throat and hoarseness for the past year. When it flares up I have trouble speaking for any length of time. Obviously this could be a problem, since the two conferences next week in CA will require 2 full days of speaking. I just saw an ENT specialist this morning. He says that I have esophageal reflux, and that this is certainly exacerbating the problem (if not causing it). I will start appropriate treatment immediately, but I would also greatly appreciate prayer for quick healing and improvement.

Thank you to any who are feeling inspired to pray.

Blessings,

Dr. Lehman/Karl
