

Title: "Conferences Went Well – Thank You for Your Prayers!"

August 3, 2018

Greetings all,

Just wanted to send a quick note to thank all those who were praying for my voice. Between the two conferences I did 14 sessions, and at the beginning of each session it felt like my voice could give out at any minute. But it never did! Both conferences went really well, with many people reporting healing experiences with Immanuel in the context of the basic training exercises. One woman came shared with me, **"All three of us in my practice group are total beginners, and each one of us experienced a connection with Jesus and beautiful healing! It was amazing!"**

All three live demonstrations also went really well. For both of the intermediate-advanced demonstrations, we were able to find and resolve several memory-anchored blockages, and then the person was able to experience a whole new level of connection with Jesus – very beautiful! Again, thank you to all who were praying.

Blessings,

Dr. Lehman/Karl
