

Title: Willow Creek, Sad News

August 9, 2018

Greetings all,

Charlotte and I are feeling really sad and heavy about the news regarding Willow Creek and Bill Hybels. (In case you haven't already seen this: Willow Creek's current senior pastor and entire elder board are all stepping down, while even more women have come forward with more sexual misconduct allegations. Bill still denies the allegations.) This is all so sad and costly for all those involved, and also with respect to our witness to the secular world.

Charlotte and I are keeping the whole situation in our prayers, and we invite all who feel lead to join us.

Remember, Immanuel is *always* with us, even (especially) in times of pain and sadness.

Blessings,

Dr. Lehman/Karl

This is not the place for an advertisement, but I will just mention that one of the topics at the upcoming conference in Wheaton will be how brain science, and specifically insights regarding bonding and relational connection circuits, can help us avoid inappropriate relationships.
