

Title: "More Prayer for My Voice Please"

September 12, 2018

Greetings all,

Just a quick note to ask for more prayer for my throat and voice. I have another conference this coming Fri and Saturday, and it would be really good if my voice holds out for all 12 hours of presentation that I need to provide. I have continued to implement recommendations from recent medical consultations, but so far still with minimal benefit. I'm grateful that they have ruled out really bad scenarios, such as throat cancer, but it would also be nice if my chronic soar throat and hoarseness would improve dramatically.

Thanks to all who feel inspired and/or willing to pray for this concern.

Blessings,

Dr. Lehman/Karl
