

Title "Seminars Went Well, Thank You for Your Prayers"

November 20, 2019

Greetings all,

Just a quick note to let you know that the seminars in Phoenix went really well – the live demonstrations went well, the practice exercises went well (many participants have reported amazing healing during the practice exercises), and I was able to get through five days of presentations without my throat giving out (small to moderate miracle – thank you to those who were praying). 😊

Blessings,

Dr. Lehman/Karl

P.S. Charlotte and I are now enjoying some *very* well earned time off (we are appreciating the natural beauty in the Sonoran Desert National Monument, the Organ-pipe Cactus National Monument, and the Saguaro Cactus National Park).
