

Title "IA Seminars Not Just for MHPs"

August 31, 2019

Greetings all,

Just a quick note to make sure folks realize that our Immanuel Approach seminars are not just for mental health professionals and people in official ministries. In addition to MHPs and people in official ministries (both great), our vision is to see spouses facilitating the Immanuel Approach for each other, parents facilitating IA for their children, friends facilitating IA for each other, people facilitating IA for others in their church small groups, prayer partners facilitating IA for each other, etc. Actually, we are already seeing IA being applied in all of these settings, and people in all of these categories have found that the IA training seminars have been very helpful in enabling them to be a part of this growing, diverse, and wonderful Immanuel Approach community.

Blessings,

Dr. Lehman/Karl
