

Title: Can You Facilitate In Other Languages?

January 18, 2020

Greetings all,

Just a quick note to recruit foreign language facilitators.

If you can facilitate Immanuel Approach sessions in languages other than English (Spanish is our most common request), **PLEASE** post a profile on the network directory and include information regarding other languages in your profile. We get regular e-mails from people who are trying to find facilitators who can provide IA sessions in other languages. And a reminder to all: most people get adequately good results over Skype, so if you can't find a local facilitator, check the network directory for people who provide Skype sessions.

Blessings,

Dr. Lehman/Karl
