

Title: "VLE Seminar Now Available as Online Course and Digital Download"

October 10, 2022

Greetings all. More good news!

After MANY hours of fighting with old video files, the *Psychological Trauma, Implicit Memory, & The Verbal Logical Explainer (VLE)* seminar is now available as an online course and/or digital download.

For those of you who are not familiar with this seminar, it provides a condensed version of the material presented in our book, *Outsmarting Yourself*. This seminar:

- Gives a research-based definition of psychological trauma, and explains how the toxic content from unresolved trauma comes forward as "invisible" implicit memory.
- Presents research and case studies that provide information about the Verbal Logical Explainer (VLE) – the part of our brain/mind whose job it is to make sense out of our experiences.
- Shows how traumatic implicit memory interacts with the VLE to produce sometimes comical, sometimes costly, misinterpretations of our life experiences. These misinterpretations then have the power to wreak havoc in our closest relationships – spouse, family, community.
- Provides simple-yet-effective new tools for recognizing and limiting the damage of "invisible" implicit memory and VLE misinterpretations.

This seminar can now be purchased (\$100), and then streamed and/or downloaded, from the following link: <https://immanuelapproach.pathwright.com/library/>

And this seminar continues to be available as a 2-DVD set from Humble Shack: <https://humble-shack.myshopify.com/collections/immanuel-approach-dr-karl-lehman/products/psychological-trauma-implicit-memory-the-verbal-logical-explainer-vle>
