

Title: "Nuggets From the Past Thirty Years, Part II: Maturity Skills -- Video"

October 31, 2022

Greetings all,

Just a quick note to let you know about another new resource. I just posted another one of the presentations I did for the May 2022 seminar at Lipscomb University. This presentation talks about maturity skills, and how they are an important necessary component for thriving that is *qualitatively different* from healing for trauma, truth (good, accurate teaching and information), salvation, and other important ingredients that are necessary for thriving.

Learning about maturity skills, and the place they play in thriving, has been one of the biggest "nuggets" that I have come across in the past thirty years of my professional and ministry career.
