

Title: "InterVarsity Alumni Testimony"

March 25, 2022

Greetings all,

A couple of months ago I asked InterVarsity alumni for input regarding the Immanuel Approach. People sent in some really encouraging, inspiring thoughts and testimonies, and I thought it would be fun to share a few of these with the rest of you. Here's the first:

"I have been so blessed by your books, websites, and videos. They, along with the Life Model, have led to huge transformation in my life. Since you announced it, I have been praying for your participation with IVCF because I think Immanuel prayer and the Immanuel lifestyle can have a massive impact on the spiritual transformation of IVCF students.

My involvement with IVCF started in college. In 1987, I was on the founding advisory board of IVCF's Marketplace Ministry, and I was one of the early entrepreneurial investors in the Marketplace Ministry.

As a part of the Marketplace Ministry I developed and led 2 different breakout seminars at 3 Urbanas. No experience in my life has exceeded worshiping with 20,000 students in the circular U of I basketball dome in Urbana.

I remember even back then that among the students there was a deep longing for a more experiential relationship with Jesus. And an Immanuel lifestyle is the only thing I know of that can meet that deep experiential longing. So I wholeheartedly endorse your participation with IVCF.

One more thing, it was that deep experiential longing that I anticipated being a need for my grandchildren in this postmodern world and that I saw in the Urbana students that I interacted with that led me to the Life Model.

I am really excited about IVCF becoming immersed in Immanuel!"

Perry B.

Blessings,

Dr. Lehman/Karl
