

Title: "Upgraded Search Function on IA Website"

November 4, 2024

Greetings all,

A quick note to let you know that we have just implemented a major upgraded to the search function on our IA website. The search function now searches *inside* of all documents, as opposed to just searching titles and key words. And there is now also an advanced search feature that includes all kinds of beautiful, high-powered options.

Blessings,

Dr. Lehman/Karl
