

Title: "Husband and Wife with Beautiful IA Experiences"

February 17, 2025

Greetings all,

One of the participants from one of my mentoring groups recently shared a very encouraging email she received after leading a group Immanuel Approach activity. Thought the rest of you would enjoy it. (Shared with permission.)

"...My husband and I each had an amazing experience!!! I can't tell you enough how powerful this Immanuel Approach counseling program truly is! It helped each of us receive a breakthrough of healing and reconnect with Jesus on such a personal level. I can't get over how deeply it impacted my husband! To see him benefit from this encounter was mind blowing!

For myself, it helped me to understand the roadblock I struggled with in trusting the Lord to always be there for me, as my early experiences with unhealthy people were extremely negative and filled with abandonment and fear. This encounter helped me to accept and acknowledge that I have been terrified of even Jesus abandoning me, and why I am terrified of losing people – so much so that I am afraid to get close with anyone, even Jesus! But by allowing myself to accept his perfect and holy love for me, I realize how I have been holding myself back by allowing fear to control me and not divine love.

Thank you my friend for your kindness, support, and gift of helping others find to healing from the Lord! So much quicker than talking to a therapist. He reveals all truth for us when we are ready to receive!"

Blessings,

Dr. Lehman/Karl
